

Resume Analysis Report

File Name: Pranjal Shukla resume (1).pdf

ATS Score: 87/100

Summary

The candidate has a strong background in computer science and engineering, with hands-on experience in backend engineering, full-stack web development, and API integration. They have a good balance of technical skills, projects, and experience, making them a competitive candidate for software engineering, backend development, and full-stack internship opportunities.

Strengths
Proficient in a range of programming languages, including Java, Python, JavaScript, and SQL
Experienced in designing scalable web applications and integrating REST APIs
Strong understanding of database management systems, including MongoDB, PostgreSQL, and MySQL
Familiarity with Agile development environments and version control systems, including Git and GitHub

Missing Skills
Cloud computing experience
Machine learning or artificial intelligence experience
Experience with containerization using Docker

Grammar Suggestions
Consider using a more formal tone in the professional summary
Use consistent formatting throughout the resume, including bullet points and white space

Recommended Roles
Software Engineer
Backend Developer
Full-Stack Developer
API Integration Specialist
